

Tru-Blu Oil Australia has recently acquired the OilTech Australia Pty Ltd product range.

Over the past 20 years OilTech had developed a range of synthetic lubricants, in particular fire resistant hydraulic fluids that enables the customer to reduce the risk of fire hazards, chemical and environmental exposure and allows them to work safer and eliminate poor lubricant performance.

OilTech had a comprehensive knowledge base on synthetic lubricants and functional fluids.

Along with the acquisition of the OilTech product range, Mike Pelling OilTech's Account Manager has moved to Tru-Blu Oil and will be providing sales and technical advise to customers of Tru-Blu Oil across the Tru-Blu Oil range of products and OilTech.

Information on OilTech products is available on our website, and if you would like more information on any OilTech or Tru-Blu Oil products or to place an order please contact us on 9720 4400.
